### Bore gauges

Versatile adapter for bore gauges with rectangular shape of base or wheels.

AL series are covering more base size, i.e. the **AL30055** can be used with bore gauges with base width from 30 to 55 mm.

To be mounted on the fixed jaw.

Any AL adapter has to be used with the counter adapter **AL3003** mounted on the mobile reference.

For bore gauges with micrometer head to be ordered **AL3003M**.

Below 20 mm of base width and for any standard bore gauge it's available a dedicated adapter.

In order to identify the right one just measure the width and send the picture as per the example to your dealer.

Technical adapters list available by request.

Adjustable telescopic supports  
for inside and outside  
large instruments such as micrometer heads,  
outside micrometers, bar gauges, ecc.

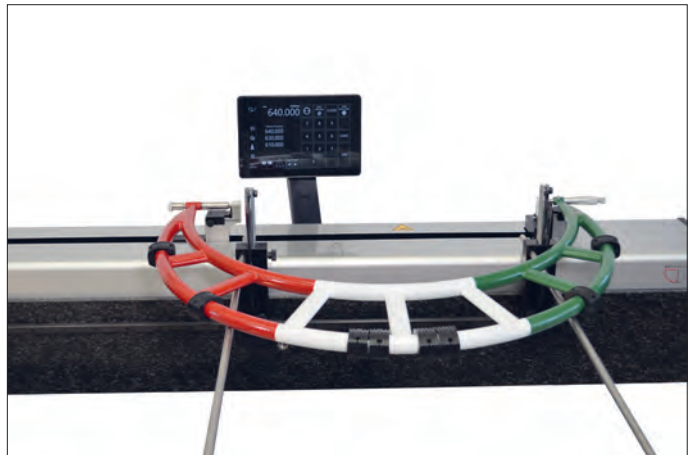

Optional on models 1000 – 5000

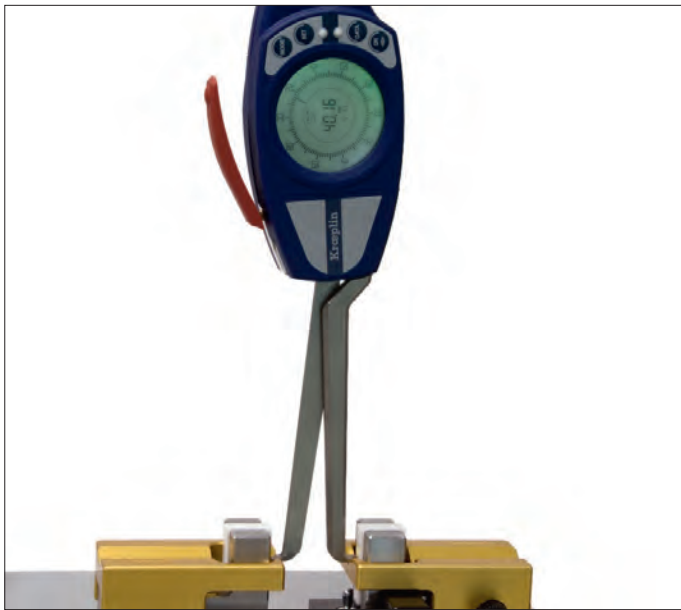

**KIT A300118**  
supports big instruments TR/T-ALL 1000 N

**KIT A300120**  
supports big instruments TR/T-ALL 1500 N

**KIT A300119**  
supports big instruments TR/T-ALL 2000 N

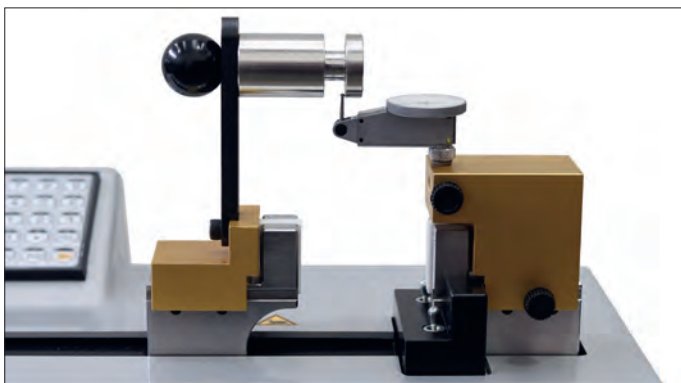

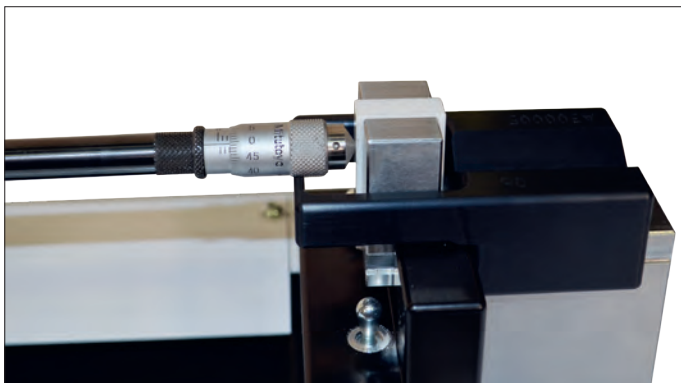

**KIT A300121**  
supports big instruments TR/T-ALL 3000 N

**KIT A300005**  
for inside micrometer heads,  
Interapid, Kroeplin.

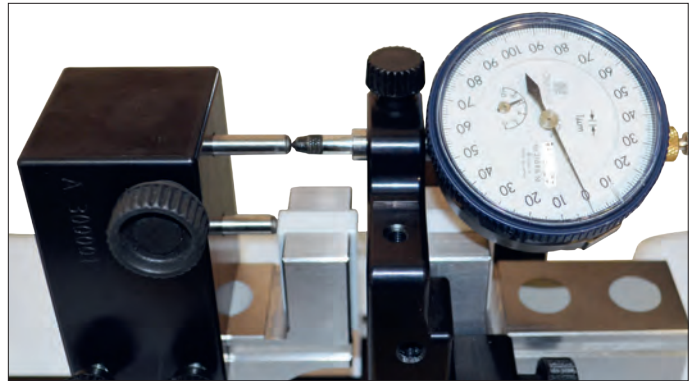

Inside and Outside function.

**KIT A7871**  
for calibration of test / lever indicator,  
2 ways movement.

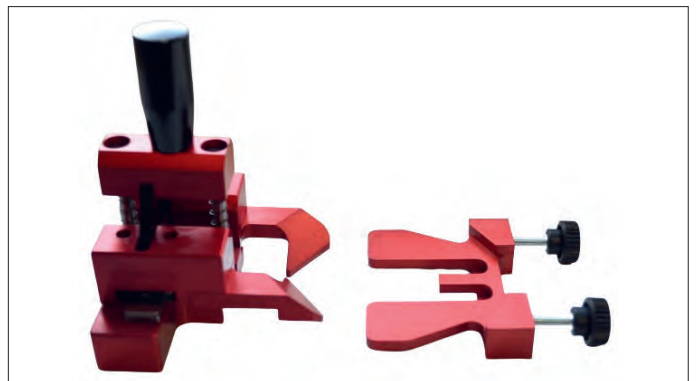

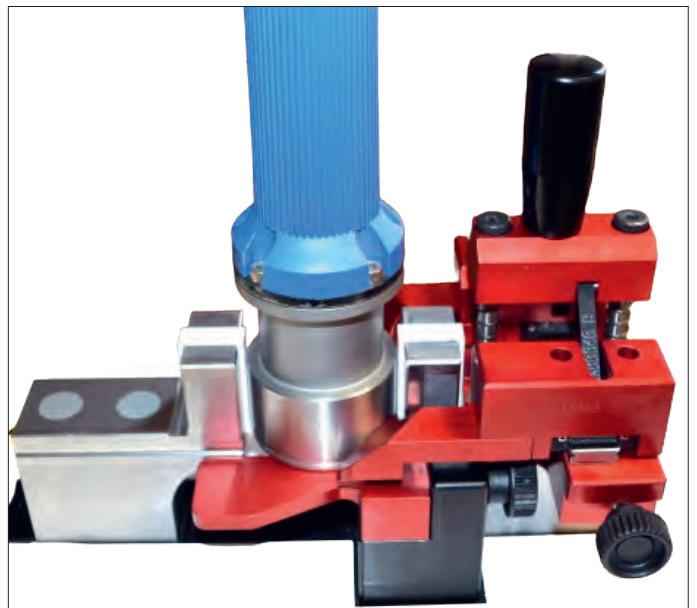

**KIT A300001 - A300002**  
for calibration of dial indicators,  
2 ways movement.

For american standard **A300002** with bore **3/8**.

**KIT 300040**  
for plug bore gauge type Marposs/Diatest  
Measuring range  $\varnothing$  10 - 80 mm

**KIT 300050**  
for plug bore gauge type Marposs/Diatest  
Measuring range  $\varnothing$  80 - 150 mm

**KIT A7750**  
for extrasmall bore gauges.

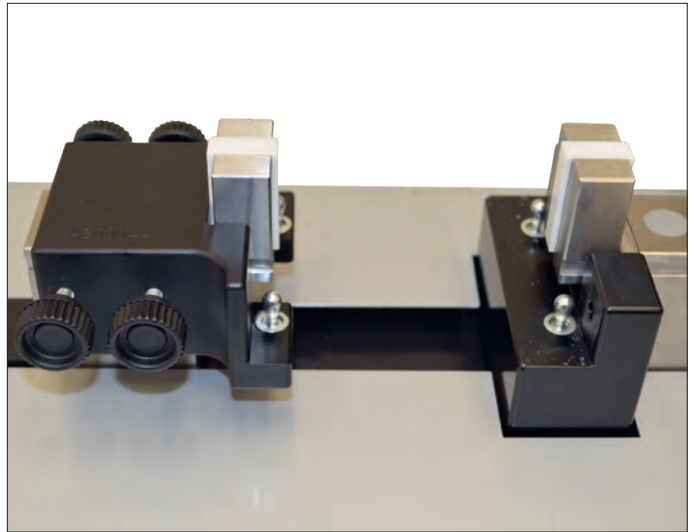

**BUSHING A7752XX**  
bushing diameter to order according to the diameter of the gauge

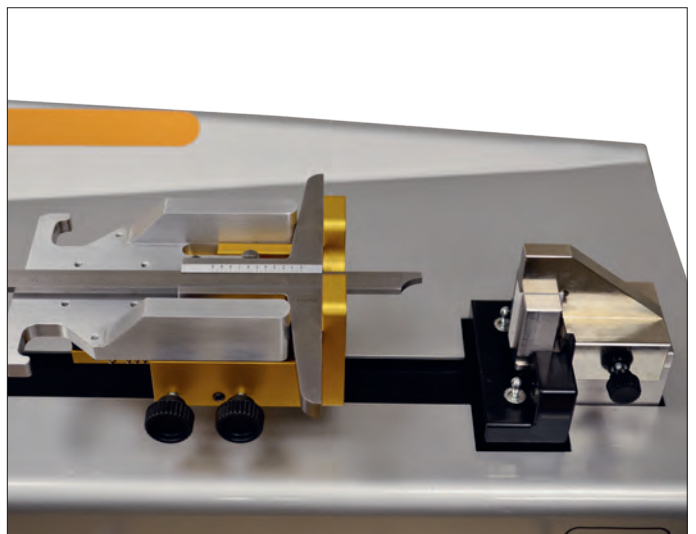

Adapter **A300044** to reverse the system  
in the use of bore gauges.

Suitable for brand Compaq bore gauges  
and vertical benches.

**KIT A300024**  
For depth calipers  
Additional uncertainty 3 microns

### KIT FOR 3-POINTS MICROMETERS

#### A7913

Measuring range  $\varnothing$  25,5 - 140 mm

#### A7914

Measuring range  $\varnothing$  120 - 240 mm

Additional uncertainty of the solution 5 microns  
+ D/100 mm

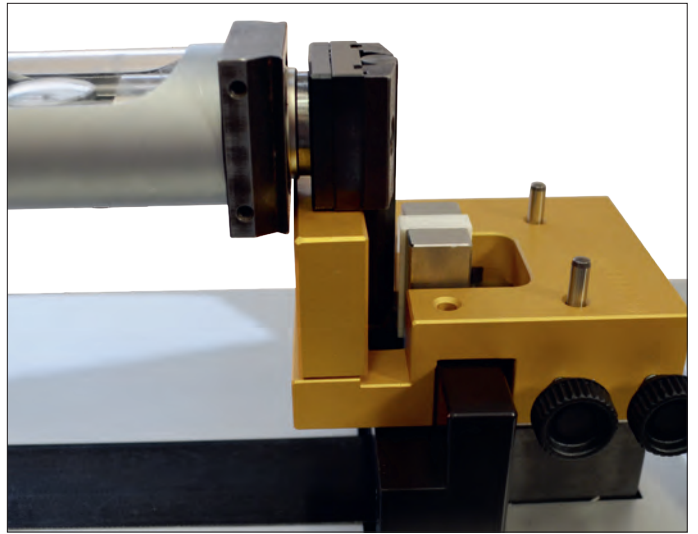

Counter-adapter for A7913 - A7914.

**A3000XX** inform your dealer about the dimension of the anvil as per picture here beside.

**KIT TESA UNIMASTER  
A300017**

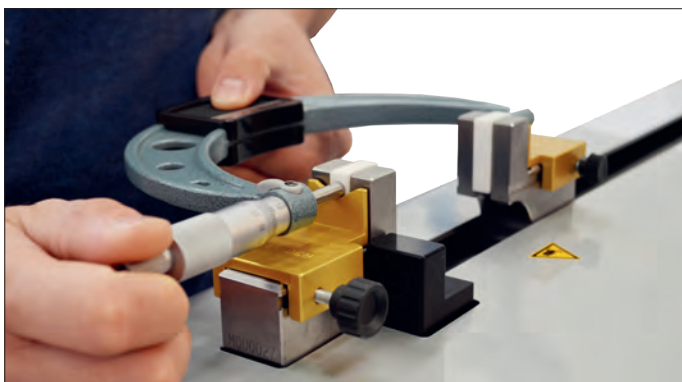

VERTICAL VERSION  
FOR LONG BORE  
GAUGE/AEROSPACE INDUSTRY  
available for model 300,600,1000

Customized blocks

Universal **KIT A300000**  
for external micrometers.

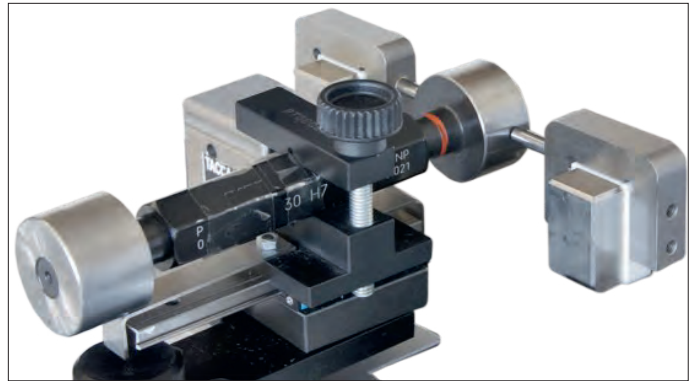

**KIT A300004**  
for bar calipers MG, INOTEST.

Inside and Outside function.

**A300112**

Floating support for go no-go plugs,  
dimensions 4 – 90 mm.  
Threads plugs wires to be purchased  
by end user.

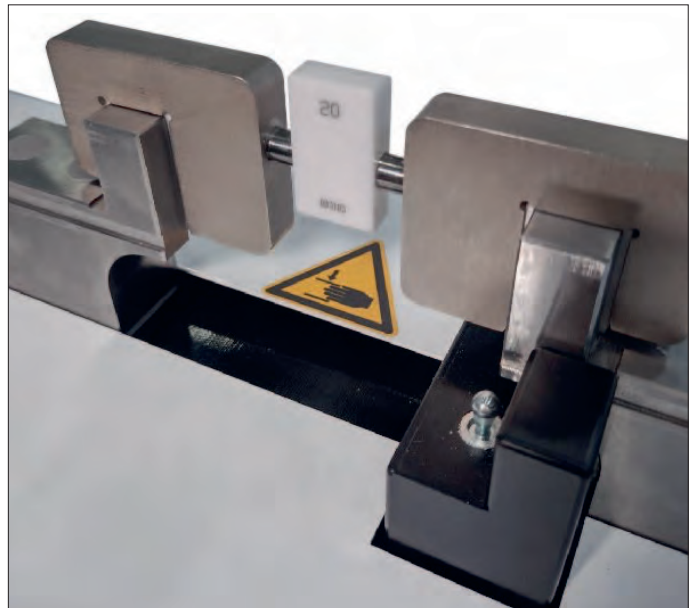

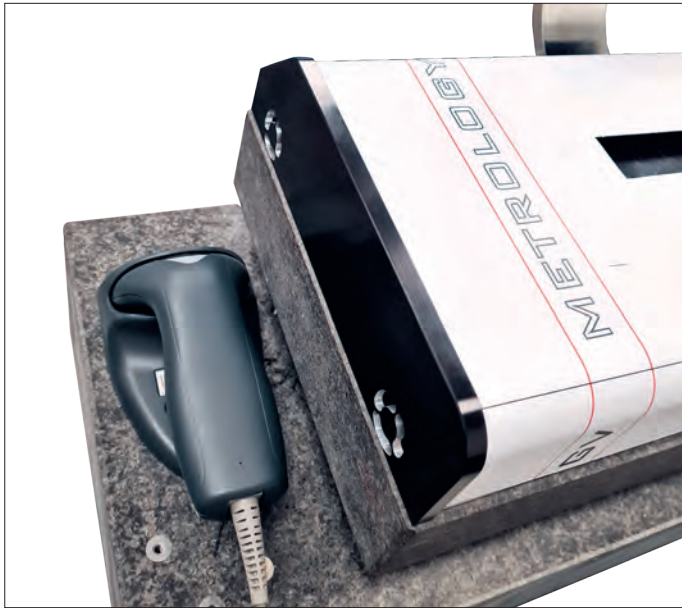

## Accessories for T-ALL:

Couple of flat contacts.

**KIT A300111** Ø 8 mm.  
**KIT A300113** Ø 6,35 mm.

Couple of radial anvils  
for flat surface measurements.  
**KIT A300999** Ø 8 mm.

BAR CODE SCANNER for dimensions recall

Steel supports for models 1500 – 5000
